Dear Jeffrey Leahy

**LICENCE TO IMPORT - IMPORTANT INFORMATION**

Your application for a licence to import substances controlled under Regulation 5 of the *Customs (Prohibited Imports) Regulations 1956* has been granted and Licence to Import No. 1821148 is attached.

The licence is valid until 31 December 2019 providing all information supplied in your licence application remains current. If any change(s) to this information occur, for example changes to a company name or address, you should advise this Office without delay so that an amended licence can be issued with minimal interruption to any future imports. Failure to notify important changes could lead to delays in the processing of applications for permits to import.

Each importation of a controlled substance requires a Permit to Import which must be obtained from this Office before the goods arrive in Australia. Applications for a Permit to Import should be made on the appropriate form at least 20 working days before the goods are due to arrive. In no case will a permit be issued for goods that have already arrived.

You must comply with any conditions set out on Permits to Import issued to you, and with the requirements set out in Regulation 5 of the *Customs (Prohibited Imports) Regulations 1956*. Failure to do so could lead to revocation of your licence. The Regulations may be obtained from the Attorney General's website ([www.comlaw.gov.au](http://www.comlaw.gov.au)). Changes to Regulation 5, including the scope of substances subject to control, are notified in the Commonwealth Government Gazette.
